House Bill No. 3871

Introduced by Congressman Ferdinand R. Marcos II

EXPLANATORY NOTE

The havoc and devastation wrought by Typhoon Maring to Ilocos Norte caused great damage to the people of the province including the loss of lives and properties. The destruction of crops, private properties, and infrastructure amounts to millions.

In the Municipality of Solsona alone, 500 hectares of farlands were deluged by floodwater from overflowed rivers and irrigation systems. Rocks and stones now cover these croplands.

Roads and bridges were washed out making them passable only to light vehicles if they are not totally unpassable. The town's livelihood has been effectively halted due to these ruinations.

The Bagbag River Control in Brgy. Bagbag, Solsona, Ilocos Norte was totally washed out by Typhoon Maring. Consequently, the Bagbag Annex of the National High School was damaged; barangay roads were scoured and washed away; and some parts of Bagbag proper were silted with sand and rocks.

In line with the above pertinent considerations, this bill seeks the construction of a series of 6 line-boulder sausage spurdiike with bank protection for the Bagbag River Control in Brgy. Bagbag, Solsona Ilocos Norte.

Considering the inadequacy of Ilocos Norte's local government funds to immediately repair and rehabilitate the Bagbag River Control assistance from the National Government is earnestly requested by way of the approval of this bill.
