

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

CONGRESS

FIRST REGULAR SESSION

House Bill No. 3872

Introduced by Congressman Ferdinand R. Marcos II

EXPLANATORY NOTE

The havoc and devastation wrought by Typhoon Maring to Ilocos Norte caused great damage to the people of the province including the loss of lives and properties. The destruction of crops, private properties, and infrastructure amounts to millions.

In the Municipality of Solsona alone, 500 hectares of farmlands were deluged by floodwater from overflowed rivers and irrigation systems. Rocks and stones now cover these croplands.

Roads and bridges were washed out making them passable only to light vehicles if they are not totally unpassable. The town's livelihood has been effectively halted due to these ruinations.

The Aguitap River Control in Brgy. Aguitap, Solsona, Ilocos Norte was ruined by Typhoon Maring. The people now fear that the damage a 200 linear meter of concrete boulder dike cut longitudinally, may cause the entering of riverwater and flooding of Brgys. Aguitap Barcelona and Santiago.

In line with the above pertinent considerations, this bill seeks the restoration of the 200 linear meter concrete boulder dike with the additional construction of a boulder sausage spur dike at the waterside of the Aguitap River Control in Brgy. Aguitap, Solsona Ilocos Norte.

Considering the inadequacy of Ilocos Norte's local government funds to immediately repair and rehabilitate the Aguitap River Control, assistance from the National Government is earnestly requested by way of the approval of this bill.

Ferdinand R. Marcos II
Congressman
2nd District, Ilocos Norte
