House Bill No. 3876

Introduced by Congressman Ferdinand R. Marcos II

EXPLANATORY NOTE

Bridges, like roads, serve as links of production centers or farms to trade centers or markets. Thus, bridges in rural areas encourage the growth of trade and commerce activities which benefit rural folks. Such infrastructure also provide conducive condition for greater mobility of people whether for economic or other purposes.

This is the case with the Brgy. Bridge of the Dalayap-Com-comloong Road of Pinili town in the province of Ilocos Norte.

Yet the havoc and devastation wrought by Typhoon Maring last September 1992 halted temporarily such mobility and economic activities. This is further aggravated by the destruction of the Brgy. Bridge of the Dalayap-Com-comloong Road which is very vital to the town's trade and commercial ventures. The bridge is totally damaged and is unpassable even by small and light vehicles.

In line with the above pertinent considerations, this bill seeks the total replacement of the Brgy. Bridge of the Dalayap-Com-comloong Road located in the Municipality of Pinili, Ilocos Norte.

Considering the inadequacy of Ilocos Norte's local government funds to immediately repair and rehabilitate the Brgy. Bridge of the Dalayap-Com-comloong Road, assistance from the National Government is earnestly requested by the way of approval of this bill.
